What will we talk about?

- How can Student Learning Outcome (SLO) assessment help improve courses and programs?
- How can we map Program Learning Outcomes (PLOs) to course Student Learning Outcomes (SLOs)?
- What should SLOs look like for effective assessment?

Having a discipline representative attend will ensure that each department with programs has all its PLOs correctly mapped to its SLOs, ensuring meaningful data when it's time to do program assessment!

All departments will be provided with mapping templates prior to the event, including any mapping completed previously. These same templates will also be available the day of the event.

If you have questions, contact the COC chair Jennifer Moses at mosesjf@piercollege.edu.
