

GELO REPORT – GELO #1

Scope of the report

This GELO Report is based on data collected in eLumen from Spring 2015 through Fall 2016 (4 semesters).

This GELO Report includes data for the following certificates and degrees that have CSLOs mapped to GELO 1.

CSU GE Breath Certificate, IGETC Certificate, General Studies :Arts & Humanities AA, General Studies:Social and Behavioral Sciences AA, General Studies: STEM AA, and General Studies: Women’s Studies AA.

Benchmarks

Previously, no benchmarks or stretch goals were set for GELO 1 for the above-listed certificate and degrees.

Percentages of students who met the CSLOs mapped to GELO 1:

- | | |
|-----------------------------------|-------|
| • CSU GE Breath | 85.5% |
| • IGETC | 86.2% |
| • GS Arts & Humanities | 83.6% |
| • GS Social & Behavioral Sciences | 84.9% |
| • GS STEM | N/A* |
| • GS Women’s Studies | N/A* |

*At the time of data collection in eLumen, the CSLOs in the courses approved for the GS STEM and GS Women’s Studies were not mapped to GELOs. This deficiency will be corrected as soon as feasible and CSLO-to-GELO 1 data for those programs will be collected and reported during the next GELO 1 Reporting Cycle (2021).

Given the results of this reporting cycle, the overall benchmark for the next GELO 1 Report (in 2021) is 81% (the average number of students who met the GELO 1 in this cycle multiplied by 95%). [Either 0.95 or 95%]

Plans for improvement

- Complete the mapping of CSLO to GELOs for the General Studies: STEM and General Studies: Women’s Studies Associate in Arts degrees
- Review and update the mapping of CSLO to GELOs for the CSU GE Breath Certificate, IGETC Certificate , General Studies: Arts & Humanities, and General Studies: Social & Behavioral Sciences Associate in Arts degrees to accurately and timely reflect curriculum changes.

GELO REPORT – GELO #1

- Establish a calendar to regularly communicate the results of these reports to the campus community (College Recommendation for Improvement #3)
