

PLO questions:

Since the previous program report, discuss programmatic SLO performance for each PLO individually and summarize overall programmatic SLO performance.

Discuss any missing or problematic data. For example, please note programmatic courses that have not been taught since the last program report, and thus do not have data to review.

Discuss any equity gaps in programmatic SLO performance.

Discuss performance on other metrics (if any) that are indicators of program success (e.g., external certifications, job placement metrics, transfer rates, etc.)

Discuss both internal (e.g., within the department) and external factors (e.g., within the college or external community) that have influenced the program's success.

Discuss how the program should be perceived by the College community, external community, and any competitors.

Based on the above, discuss any proposed plans for improvement for the Program, including but not limited to changes to course curriculum, SLOs, and PLOs.
